Professional Experience

- 2020 - **Associate Professor**, Departamento de Matemática, Universidad Técnica Federico Santa María, Valparaíso, Chile.
- 2016 - 2019 **Assistant Professor**, Departamento de Matemática, Universidad Técnica Federico Santa María, Valparaíso, Chile.
- 2015 **Faculty Research Associate (postdoc)**, supported by CONICYT through FONDECYT project 3160201, Universidad Técnica Federico Santa María, Valparaíso, Chile.
- 2014 - 2015 **Faculty Research Associate (postdoc)**, University of Maryland, College Park and George Mason University, Fairfax.

Education

- 2009 - 2014 **Doctor of Philosophy (Ph.D), Applied Mathematics and Scientific Computing**, University of Maryland, College Park, USA.
Thesis: A PDE approach to numerical fractional diffusion; Advisor: Ricardo Nochetto.
- 2009 - 2012 **Master of Science (MS), Applied Mathematics and Scientific Computing**, University of Maryland, College Park, USA.
Thesis: A FEM for the square root of the Laplace operator; Advisor: Ricardo Nochetto.
- 2001 - 2007 **Ingeniero Civil Matemático**, Universidad Técnica Federico Santa María, Chile.
Thesis: Control activo de estructuras delgadas; Advisor: Erwin Hernández.
- 2001 - 2005 **Licenciado en Ciencias de la Ingeniería Matemática**, Universidad Técnica Federico Santa María, Chile.

Awards and Distinctions

- 2022 **Fondecyt Regular grant – 1220156**, the proposed project ranked *third* in the category *Mathematics*.
- 2022 **Highly cited paper**, *A PDE approach to space–time fractional parabolic problem* received enough citations to place it in the top 1% of the field of Mathematics based on a highly cited threshold for the field and publication year, Data from Essential Science Indicators.
- 2022 **Highly cited paper**, *A PDE approach to fractional diffusion on general domains* received enough citations to place it in the top 1% of the field of Mathematics based on a highly cited threshold for the field and publication year, Data from Essential Science Indicators.
- 2021 **Most cited mathematicians**, among the most cited mathematicians graduated in the year 2014, <https://mathcitations.github.io>.
- 2018 **Fondecyt Iniciación grant – 11180193**, the proposed project ranked *second* in the category *Mathematics*.
- 2015 **Fondecyt Postdoctorado grant – 3160201**, the proposed project ranked *first* in the category *Mathematics*.
- 2013 **Mark E. Lachtman Graduate Student Award**, recognition for outstanding academic accomplishments, Department of Mathematics, University of Maryland, College Park.

- 2012 **John E. Osborn Fellowship**, *recognition for outstanding academic accomplishments*, Department of Mathematics, University of Maryland, College Park.
- 2009 **Conicyt–Fulbright Fellowship**, *Beca de Doctorado Igualdad de Oportunidades*, Chile.
- 2007 **Distinguished son of Vallenar**, *recognition for outstanding achievement academics*, Chile.
- 2001 **Juan Gómez Millas Fellowship**, *Ministry of education*, Chile.

Grants

- 2022 **Fondecyt Regular Grant – 1220156**, *Approximation and control of singular and nonlocal problems*, 2022–2026.
- 2019 **USM Grant**, *Modelación y aproximación numérica de sistema evolutivos basados en la concentración de CO₂ en alimentos envasados*.
- 2018 **Fondecyt Iniciación Grant – 11180193**, *Numerical analysis of problems involving fractional PDEs and nonsmooth solutions*, 2018–2020.
- 2015 **Fondecyt Postdoctorado Grant – 3160201**, *Numerical fractional diffusion: A PDE approach, integral formulation, extensions, and applications*, 2016–2018.

Articles

Publications available at <http://eotarola.mat.utfsm.cl/>

Invited Talks

- April 2022 **Departmental Online Colloquium Talk**, *The Hong Hong Polytechnic University*, Fractional semilinear optimal control: optimality conditions, convergence, and error analysis, Hong Kong.
- Sept. 2021 **Conference on System Modelling and Optimization, IFIP TCT 2021**, *Evento Virtual*, Fractional semilinear optimal control: optimality conditions, convergence, and error analysis, Quito, Ecuador.
- Sept. 2021 **VI Congreso Latinoamericano de Matematicos (CLAM)**, *Evento Virtual*, Analysis and approximation of fluids under singular forcing, Montevideo, Uruguay.
- July 2021 **XIX Congreso de Matematica Capricornio**, *Conferencia subplenaria*, Métodos numéricos para difusión fraccionaria, Copiapó, Chile.
- July 2021 **SIAM Conference on Control and Its Applications (CT21)**, *Estimation and Control of PDE Systems*, Error Estimates for a Pointwise Tracking Optimal Control Problem of a Semilinear Elliptic Equation, USA.
- Aug. 2019 **Seminario del Instituto de Ingenieria Matemática y Computacional UC**, *Pontificia Universidad Católica de Chile*, Error estimates for optimal control problems involving Dirac measures, Santiago, Chile.
- July 2019 **ICIAM 2019, International Congress on Industrial and Applied Mathematics**, *Minisimposia: Advances in Fractional Partial Differential Equations: Modeling, Theory and Computation*, Tensor FEM for spectral fractional diffusion, Valencia, Spain.
- July 2019 **ICIAM 2019, International Congress on Industrial and Applied Mathematics**, *Minisimposia: Control, Optimization, and Numerical Methods for Infinite Dimensional Systems*, Error estimates for optimal control problems involving Dirac measures, Valencia, Spain.
- Mar. 2017 **Oberwolfach Workshop: Space-time Methods for Time-dependent Partial Differential Equations**, *A PDE approach to space-time fractional parabolic problems*, Oberwolfach, Germany.
- Feb. 2016 **Computational/Applied Math Seminar**, *Adaptive finite element methods for optimal control problems involving Dirac measures*, University of Tennessee, USA.
- Dec. 2015 **Segunda Escuela de Control y Optimización**, *A FEM for an optimal control problem of fractional powers of elliptic operators*, Universidad Técnica Federico Santa María, Chile.
- Oct. 2015 **Seminario del Departamento de Matemática**, *A PDE approach to numerical fractional diffusion*, Universidad Técnica Federico Santa María, Chile.
- May 2015 **ITL Applied and Computational Mathematics Division seminar**, *A PDE approach to fractional diffusion*, National Institute of Standards and Technology (NIST), USA.
- Apr. 2015 **Differential Equations Seminar**, *A PDE approach to numerical fractional diffusion*, University of Maryland Baltimore County, USA.
- Mar. 2015 **NumeriWaves Seminar**, *A PDE approach to numerical fractional diffusion*, Basque center for applied mathematics, Spain.
- Mar. 2015 **Fakultät für Mathematik Seminar**, *A PDE approach to numerical fractional diffusion*, Technische Universität München, Germany.
- Mar. 2015 **Workshop on Numerical Methods for Optimal Control and Inverse Problems**, *A FEM for an optimal control problem of fractional powers of elliptic operators*, Technische Universität München, Germany.

- Jan. 2015 **Charla de Matemáticas**, *A PDE approach to numerical fractional diffusion*, Pontificia Universidad Católica de Chile, Chile.
- May 2014 **Numerical Analysis Seminar**, *A PDE approach to space-time fractional parabolic problems*, University of Maryland, College Park, USA.
- Feb. 2014 **Computational/Applied Math Seminar**, *A PDE approach to numerical fractional diffusion*, Department of Mathematics, University of Tennessee, USA.
- Jan. 2014 **Applied and Computational Math Seminar**, *A PDE approach to numerical fractional diffusion*, Department of Mathematics, George Mason University, USA.
- Aug. 2013 **Seminario del Departamento de Matemática**, *A PDE approach to numerical fractional diffusion*, Universidad Técnica Federico Santa María, Chile.
- Aug. 2013 **Charla de Matemáticas**, *A PDE approach to numerical fractional diffusion*, Pontificia Universidad Católica de Chile, Chile.
- May 2013 **Scientific Computing Group Seminar**, *A PDE approach for fractional diffusion: A priori and a posteriori error analysis*, Division of Applied Mathematics, University of Brown, USA.
- Mar. 2013 **Numerical Analysis Seminar**, *A PDE approach for fractional diffusion: A priori and a posteriori error analysis*, University of Maryland, College Park, Chile.

Contributed Talks

- June 2017 **Santiago Numérico III**, *Optimization with respect to order in a fractional diffusion model: analysis and approximation*, Pontificia Universidad Católica de Chile, Chile.
- Jan. 2016 **WONAPDE, Minysimposia: Adaptivity in Numerical PDE**, *Adaptive finite element methods for an optimal control problems involving Dirac measures*, Universidad de Concepción, Chile.
- Jan. 2016 **WONAPDE, Minysimposia: Numerical Methods for Nonlocal problems**, *A PDE approach to space-time fractional parabolic problems*, Universidad de Concepción, Chile.
- Aug. 2015 **XXIV Congreso de Matemática Capricornio**, *A PDE approach to space-time fractional parabolic problems*, Universidad Arturo Prat, Iquique, Chile.
- May 2015 **DelMar Numerics Day**, *Piecewise polynomial interpolation in weighted Sobolev spaces and applications to optimal control problems*, U.S. Naval Academy, Annapolis, USA.
- Mar. 2015 **Finite Element Circus**, *A PDE approach to space-time fractional parabolic problems*, George Mason University, USA.
- Oct. 2014 **Finite Element Circus**, *Convergence rates for the elliptic fractional obstacle problem*, University of Minnesota, USA.
- May 2014 **DelMar Numerics Day**, *A PDE approach to space-time fractional parabolic problems*, University of Maryland, Baltimore County, USA.
- Oct. 2013 **Finite Element Circus**, *A PDE approach to fractional diffusion: a priori error estimates*, University of Delaware, USA.
- Jan. 2013 **WONAPDE Minysimposia: Mathematical Aspects of Finite Element Methods**, *A PDE approach for fractional diffusion: a priori and a posteriori error analysis*, Universidad de Concepción, Chile.
- Aug. 2012 **7th Zürich Summer School**, *A PDE approach for fractional diffusion: a priori and a posteriori error analysis*, University of Zürich, Switzerland.
- Apr. 2012 **DelMar Numerics Day**, *A FEM for the fractional Laplace operator*, University of Delaware, USA.
- Oct. 2011 **Finite Element Circus**, *A FEM for the fractional Laplace operator*, University of Connecticut, USA.

- Aug. 2007 **XVII Congreso de Matemática Capricornio**, *A locking free FEM in the active vibration control of a Timoshenko beam*, Universidad de Atacama, Chile.
- Apr. 2007 **XXI Jornada de Matemática de la Zona Sur**, *A FEM in the active vibration control of a Timoshenko beam*, Universidad Católica de la Santísima Concepción, Chile.

Students

- 2023 – **Matias Sasso**, *Master of Science, Mathematics*, Departamento de Matemáticas, Universidad Técnica Federico Santa María, Chile, In process.
- 2022 – **Pablo Muñoz**, *Master of Science, Mathematics*, Departamento de Matemáticas, Universidad Técnica Federico Santa María, Chile, In process.
- 2021 – **Daniel Quero**, *Ph.D in Mathematics*, Departamento de Matemáticas, Universidad Técnica Federico Santa María, Chile, In process.
- 2020 – **Gilberto Campana**, *Ph.D in Mathematics*, Departamento de Matemáticas, Universidad Técnica Federico Santa María, Chile, In process.
- 2018 – 2022 **Francisco Fuica**, *Ph.D in Mathematics*, Departamento de Matemáticas, Universidad Técnica Federico Santa María, Chile, Title: Numerical analysis for nonlinear PDE-constrained optimization.
- 2018 – 2019 **Daniel Quero**, *Master of Science, Mathematics*, Departamento de Matemáticas, Universidad Técnica Federico Santa María, Chile, Title: A priori and a posteriori error analyses for linear and nonlinear optimal control problems under singular sources.
- 2016 – 2018 **Francisco Fuica**, *Master of Science, Mathematics*, Departamento de Matemáticas, Universidad Técnica Federico Santa María, Chile, Title: Adaptive finite element methods in sparse PDE-constrained optimization.
- 2016 – 2017 **Daniel Quero**, *Mathematical Engineering*, Departamento de Matemáticas, Universidad Técnica Federico Santa María, Chile, Title: A posteriori error estimation for finite element approximations of a PDE-constrained optimization problem in fluid dynamics.

Teaching Experience

- 2016 – 2018 **Assistant Professor**, *Calculus 1, Calculus 2, Linear Algebra, Numerical Analysis II*, Departamento de Matemática, Universidad Técnica Federico Santa María, Chile.
- Fall 2014 **Lecturer**, *Linear Algebra and Applications*, Department of Mathematics, University of Maryland, College Park.
- Fall 2014 **Attendee**, *Teaching Seminar Training*, Department of Mathematics, University of Maryland, College Park.
- Spring 2012 **Discussion Leader**, *Research Interaction Team*, Multilevel methods on quasi-uniform grids, Numerical Analysis group, University of Maryland, College Park.
- Fall 2011 **Discussion Leader**, *Research Interaction Team*, Approximation classes for adaptive higher order finite element approximation: Besov spaces, Numerical Analysis group, University of Maryland, College Park.
- Fall 2010 **Discussion leader**, *Research Interaction Team*, Optimal control of PDEs, Numerical Analysis group, University of Maryland, College Park.
- 2007 - 2008 **Lecturer**, *Calculus II and Calculus III*, Departamento de Matemática, Universidad Técnica Federico Santa María, Chile.
- 2007 **Lecturer**, *Linear Algebra, Calculus II and Calculus III*, Department of Science and Technology, Universidad Adolfo Ibanez, Chile.
- 2002-2006 **Teaching Assistant**, *Measure Theory, Numerical Linear Algebra, Numerical Analysis of Partial Differential Equations, Calculus I, Calculus II, Calculus III*, Departamento de Matemática, Universidad Técnica Federico Santa María, Chile.

Conference and minisymposia organization

- 2024 **Co-organized**, *Approximation and analysis of partial differential equations with singular data*, WONAPDE, Chile.
- 2023 **Co-organized**, *Frontiers of Numerical PDEs*, Fractional differential equations, geometric evolution, liquid crystals, optimal transport, and adaptivity, College Park, Maryland, USA.
- 2021 **Co-organized**, *Optimal control and optimization for nonlocal and fractional Problems*, IFIP TCT, Ecuador.
- 2019 **Co-organized**, *Numerical approximation of nonlocal and fractional problems*, WONAPDE, Chile.
- 2018 **Co-organized**, *Análisis Numérico*, LXXXVII Encuentro anual de la sociedad de matemática de Chile, Chile.
- 2018 **Co-organized**, *Análisis numérico*, Jornadas matemáticas de la zona sur, Chile.
- 2017 **Scientific committee**, *Modeling, analysis, and numerics for nonlocal applications*, Santa Fe, USA.
- 2016 **Co-organized**, *Análisis numérico de ecuaciones en derivadas parciales*, SUMA, Chile.
- 2016 **Co-organized**, *Numerical methods for nonlocal problems*, WONAPDE, Chile.

Review and Refereeing

Referee for the following Scientific Journals: *Foundations of Computational Mathematics, Mathematical Models and Methods in Applied Sciences, SIAM Journal on Numerical Analysis, SIAM Journal on Control and Optimization, SIAM Journal on Scientific Computing, Mathematics of Computation, Numerische Mathematik, Journal of Scientific Computing, ESAIM: Mathematical Modelling and Numerical Analysis, ESAIM: Control, Optimisation and Calculus of Variations, Computers and Mathematics with Applications, Asymptotic Analysis, Mathematical Methods in the Applied Sciences, Advances in Difference Equations, Fractional Calculus and Applied Analysis, Calcolo.*

Applied Research Experience

- 2007 **Southeastern Pacific Research Institute, Chile**, *Computational Advanced Material Design: An algorithm in the construction of bulk metallic glass.*
- 2006 **Institute for Innovation in Mining and Metallurgy, Codelco, Chile**, *An stochastic optimization model in planning mining.*
